

Pure Water Made Simple

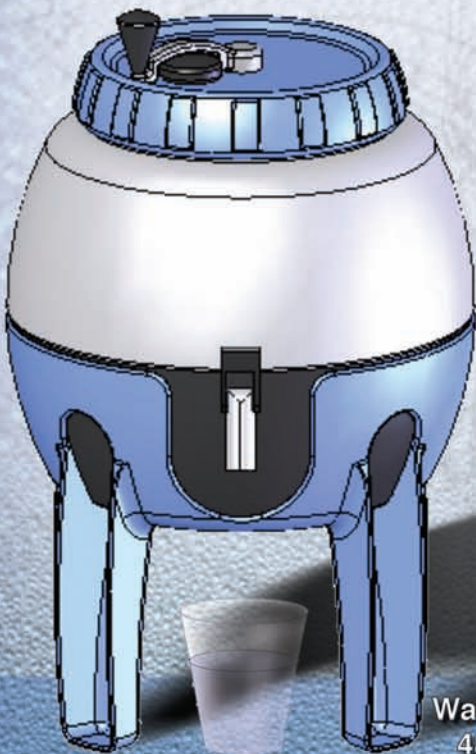

## Multi-Litre Reusable Water Purification System

The Sokol1™ system provides an efficient solution for producing large quantities of quality drinking water when normal sources have been interrupted or are otherwise not available. The Sokol1™ system treats Organic, Biological and Chemical water contaminants, and is manufactured from approved materials under international standards.

Available in various configurations (20, 50, 100 liters).

### The Benefits of Sokol1™:

- Compact
- Lightweight
- Mobile
- Easy to use
- Reusable
- Energy independent
